

Subject: Submission Remuneration

Dear Sir/Madam.

I submit that there should be no increases at all.

I also note a lot of councillors are getting additional benefits outside of this allowance

Such as fully paid tertiary education, Overseas trips, Interstate trips, internet, phone calls, clothing, council meals and other non-essential additional expenses all of which should be paid for out of a councillor's allowance.

After all you are not forced to be a councillor it's a position that you want to do to help your community. To many councillors are using it as source of income and this is not what the allowance was designed to be for.

Regards

Cr Trevor Dance
