

**Subject:** Submission for Members of Parliament salaries and allowances - annual adjustment

Hi Tribunal team,

I would like to make a submission requesting for MP salaries and allowances to reflect the public services wide 3% wage cap from the Wages Policy and the on-going base review and efficiencies and capital repatriations which are required from the public service and state-owned enterprises.

**What adjustments to the values of MP salaries and allowances should the Tribunal consider, if any?**

Consideration of reducing salaries considering the deficit in the Victorian Budget and the threat to Victoria's credit rating. If not, holding salaries steady (nominally).

**Which economic and financial indicators should the Tribunal consider in adjusting the values of MP salaries and allowances?**

The state of Victoria's finances and debt. Equity for the same efficiencies and cost cutting required across all public services and State-Owned Enterprises.

Thank you for your consideration of my submission.

Warmly,
